| <b>LEVEL STRIPE</b>   | 3              | <b>REPORT TO</b>    | Senior Doctor  |
| <b>DIRECT REPORTS</b> | No             | <b>DATE</b>         | August 20,2020 |

**KEY RESPONSIBILITIES**

**Basic Function:**

Guest and crew medical care for minor to major emergency situations as well as the general medical care of all crew members including preventative medicine and care of chronic conditions while reporting necessary cases to the different port and health authorities of the different ports of call.

**Position Summary:**

To provide medical services to all Crewmembers and Guests. The Doctor shall assist the Staff Captain and Senior Doctor in all shipboard health-related matters including outbreak prevention, and illness reporting as required by international, national and company policies. In order to consistently exceed guest expectations and provide the highest levels of product and services, additional duties and responsibilities may be assigned as needed.

**Required Documents upon Boarding:**

Doctors must bring ORIGINAL DOCUMENTS with them when they arrive to the ship: Medical School Diploma or equivalent, BLS, ACLS, PALS, ATLS and professional license certificates that are valid for the entire lengths of their contract.

*It is the responsibility of the Doctor to take the courses and tests that are necessary to keep these licenses valid along with any necessary post-graduate credits.*

**QUALIFICATIONS AND EDUCATION**

**Qualifications:**

- Three years minimum clinical experience in Acute Care setting, after completion of a recognized Medical training program is required.
- One-year practical experience in Advanced Cardiac Life Support is required.
- One-year experience in diagnosing and treating a broad range of medical conditions is required, including experience performing minor surgery such as suturing, removal of benign skin lesions, removal of foreign objects, removal of ingrown toenails, and identification of and immobilizing of simple fractures.
- Intermediate to Advanced verbal and written level of English is required.
- **Specialization with:** Anesthesiology, Intensive Care, Internal medicine, or pulmonology experience preferred.

**Education:**

- Medical Degree from a recognized College or University is required.
- Active, current medical license in good standing in Country or State/Province of origin is required.
- Completion of a recognized Medical specialty training program is required, in at least one of the following: Emergency Medicine, General Practice, Internal Medicine, Cardiology, or General Surgery.
- Advanced Cardiac Life Support, Pediatric Advanced Life Support and Adult Trauma Life Support certifications that are valid for the entire length of the contract on board the ship. It is the responsibility of the Doctor to ensure that these credentials are valid for the entire time he or she will be working on board the ship.

**Attributes:**

- Passionate about hospitality and customer service driven
- Must have a professional appearance and good hygiene
- Respect for all co-workers and guests
- Pride in your work by creating positive energy, excitement and fun
- Able to work 7 days a week
- Demonstrate positive behaviors; smiling, being polite and courteous
- Able to develop a camaraderie with team members
- Ability to live in close quarters, share limited space with other cabin-mates

**LANGUAGE REQUIREMENTS**

**English**

**PHYSICAL REQUIREMENTS**

While performing the essential functions of this job, all team members are required to stand; walk long distances on the ship; use hands to touch, handle or feel; reach with hands and arms; talk, hear, taste and smell. All vessel positions require repetitive motion of bending, climbing, going up and down stairs and being able to lift up to 50 pounds. This job requires specific vision abilities to include close vision, distance vision, color vision, peripheral vision, depth perception and ability to adjust focus.

All team members must be physically able to participate in emergency life-saving procedures and drills. All vessel positions require full use and range of arms and legs as well as full visual, verbal and hearing abilities to receive and give instructions in the event of an emergency including the lowering of lifeboats.

Work within different temperature changes - indoors to outdoors.

Able to pass basic safety course.

All medical personnel must wear protective personal equipment (PPE) and are responsible to ensure that the face mask is well fit. They are also responsible for making sure that they are trained in the correct use of PPE. All medical personnel need to be familiar with the decontamination zones and the correct circulation through these zones.
